Sonozaire Model 105A Odor Neutralizer

Cleaning Management,
for Offices, Buildings,
Stores, Homes, etc.

CONNECTION TO HVAC FOR AIR QUALITY CONTROL

Indoor Air Quality for
Problem Areas

Sonozaire produces ozone electronically from oxygen in the air. Ozone is an activated form of oxygen that oxidizes odor molecules, and reduces them to odorless compounds, such as carbon dioxide and moisture. Ozone destroys odors caused by smoke, mold, mildew, tobacco, pets, chemicals, body odors, sewage, decayed food, cooking, animals and almost every known odor.

Destroying odors permanently... since 1979

Sonozaire® Odor Neutralizer

- ✓ Eliminates Odors Electronically
- ✓ Operates Unattended
- ✓ Uses No Chemicals
- ✓ Heavy-Duty Construction
- ✓ Retards Bacterial Growth
- ✓ Quick and Easy to Install
